ABOUT TEIKYO UNIVERSITY

Teikyo University is a private university founded in 1966. The integration of practical learning, international perspectives and open mindedness is the backbone of our educational structure. Also, we respect those who have "their way" who can think and act to demonstrate their own individuality. We have four campuses in Japan. Itabashi, Hachioji, Utsunomiya and Fukuoka. Overseas, we have a campus in Durham, England.

Also, as a group, there are universities such as Teikyo Heisei University and Teikyo University of Science. Other than that, we have vocational schools, high schools, middle schools, kindergartens and Japanese language schools in our group.
